Re: Patent Portfolio Acquired From Neuron Therapeutics

Dear John:

Further to our telephone conversation of last week, a decision needs to be made immediately regarding the prosecution of the subject patent applications. As you know, Integra took all the file wrappers in June, 2003. Dechert was told at that time, that the files would be copied and returned to us. If Integra wishes for Dechert to continue to represent them, the files must be returned to us.

As previously reported to you, there is a non-final office action for US Serial No. 10/314,870, Docket No. 358381-108 with a three month due date of October 8, extendible with fees until January 8, 2005; and a final office action for US Serial No. 09/908,985, Docket No. 358381-101 with a three month date of December 9, extendible with fees until March 9, 2005.

We have also recently received a request from the patent office for a sequence listing for US Serial No. 10/090,441, Docket No. 358381-104A with an initial due date of October 25, extendible with fees until March 25, 2005. This takes some time to prepare and cannot be done without the file.

We request that you give us your decision by October 29, 2004. If we do not hear from you by that date, we will file withdrawal papers by November 1, 2004.

Sincerely,

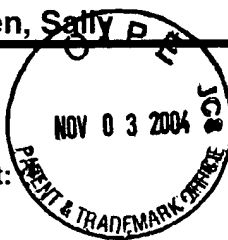

Sally B. Hansen
